SETTLEMENTS

The purpose of this section is to identify the model of settlement employed, the relationship between cash and securities, and the basis on which participants meet their obligations.

48. The Committee on Payment and Settlement Systems of the Bank for International Settlements (BIS) has identified three common structural approaches or models for linking delivery and payment in a securities settlement system. Please indicate which model your procedures most closely resemble (Please refer to details on the models within the "Help" section located below this question): (Choose all that apply.)

- Model 1 - Gross, Simultaneous Settlements of Securities and Funds Transfers. (please answer 48a)
 Model 2 - Gross Settlements of Securities Transfers Followed by Net Settlement of Funds Transfers. (please answer 48a)
 Model 3 - Simultaneous Net Settlement of Securities and Funds Transfers. (please answer 48a)
 Not applicable
 Other (please answer 48b)

48a. Please briefly describe your settlement process, including how your settlement procedures may vary from the model chosen above (and as described below in the Help section)?

Settlement is performed through the Central Bank of Iceland in three segregated settlement batches to participants sub-accounts in The Central Bank.

48b. If other, please explain:

Settlement of the Latvian, Estonian and Lithuanian securities is outsourced to T2S.

Question 48 Help:

Model 1 - Gross, Simultaneous Settlements of Securities and Funds Transfers. These systems settle transfer instructions for both securities and funds simultaneously on a trade-by-trade (gross) basis, with final (irrevocable and unconditional) transfer of securities from the seller to the buyer (delivery) occurring at the same time as final transfer of funds from the buyer to the seller (payment). The securities settlement system maintains securities accounts and funds accounts for participants. Transfer of securities and cash are made by bookentry.

Model 2 - Gross Settlements of Securities Transfers Followed by Net Settlement of Funds Transfers. These systems settle securities transfer instructions on a trade-for-trade (gross) basis, with final transfer of securities from the seller to the buyer (delivery) occurring throughout the processing cycle, but settle funds transfer instruction on a net basis, with final transfer of funds from the buyer to the seller (payment) occurring at the end of the processing cycle.

The securities settlement system maintains securities accounts for participants, but funds accounts are usually held by another entity (often a commercial bank or the central bank). Securities are transferred by book-entry, such transfer being final at the instant the entries are made on the securities settlement system's books. The corresponding funds transfers are irrevocable, but not final. During the processing cycle, the system calculates running balances of funds debits and credits, the balance being settled at the end of the processing cycle when the net debit and net credit positions are posted on the books of the commercial bank or central bank that maintains the funds accounts. Settlement

of funds accounts may occur once a day or several times a day.

Model 3 - Simultaneous Net Settlement of Securities and Funds Transfers. These systems settle transfer instructions for both securities and funds on a net basis, with final transfer of both occurring at the end of the processing cycle. Settlement may occur once a day or several times a day. The securities settlement system maintains securities accounts for participants. Funds accounts may be maintained by another entity, either a commercial bank or the central bank.

During a processing cycle, running balances of debits and credits to funds and securities accounts are calculated. All funds and securities transfers are provisional until the end of the processing cycle, at which time book-entry transfer of securities take place. If and only if all participants have sufficient balances of funds and securities, final transfers of the net securities balances and net funds balances are executed.

49. Are the cash and security movements simultaneous?

- Yes
- No (please answer 49a)
- Not applicable
- Other (please answer 49c)

- Yes (please answer 52e)
- No (please answer 52g)
- Other (please answer 52l)

52g. If the securities held with the depository are recorded by book-entry at the registrar but are not registered exclusively to the depository, may they be registered to:

- The beneficial owner
- A nominee
- Other (please answer 52h)

52h. Please describe:

Estonia: Securities can be registered only at the Depository. The Depository provides centralised function of recording ownership. In Lithuania expectation applies for non public companies (issuer agents may act as a registrar).

52i. If the securities held with the depository are recorded by book-entry at the registrar, what are the control features at the registrar for transfer of registrar positions to and from the depository (e.g., authentication procedures, reconciliation, confirmation of position at registrar)? Please describe:

Transfer of securities are authenticated by banks (the participants of the Depository). Reconciliation and confirmation operations apply.

Response Necessary/Eligibility Question

53. Rule 17f-7 requires that an Eligible Securities Depository “maintains records that identify the assets of each participant and segregate the system's own assets from the assets of participants.”

HANDLING OF SECURITIES OUTSIDE THE DEPOSITORY ENVIRONMENT

The purpose of this section is to consider the process (and any risk inherent within such a process) that involves the safekeeping of client assets while they are being removed from a depository and being lodged into a depository.

57. How are eligible securities lodged (that is, placed) in the depository system? (Choose all that apply.)

- A registered certificate in the name of the depository is delivered to the depository.
- A participant delivers the security with a valid transfer deed or stock power or other transfer document to the depository which then effects registration.
- A registrar re-registers the security in the name of the depository.
- Other (please answer 57a)
- Not applicable

57a. Please describe:

Estonia: Initial registration is based upon application (including information about the owners and their securities accounts numbers) submitted by the issuer. Latvia: Securities can be deposited with the Depository by signing an agreement on recording the issue of financial instruments in the Depository. Lithuania: When new securities issue is registered by the issuer, the issuer's agent files all the necessary documents on the new securities issue to the Depository. In Iceland equities are registered in the name of the shareholder in accordance with the sharebook on the dematerialization date. Other securities are registered in the name of the owner by the participants. The Depository opens the Distribution Account and the accounts for the account managers, who are holding the securities of this particular issue in a dematerialized form.

58. When are securities lodged into the depository reflected in a participant's depository account? (Choose all that apply.)

- Securities are reflected in the participant depository account immediately upon delivery to the depository.
- Securities are re-registered prior to being reflected in the participant's depository account.
- Other (please answer 58a)
- Not applicable

58a. Please explain:

The securities are lodged in a participant's depository account upon processing of the application submitted by the issuer or issuer agent.

59. How long does it usually take to lodge securities with the depository? (Choose one.)

- 1 to 2 days
- 3 days to 1 week
- 2 to 4 weeks
- More than 4 weeks (please answer 59a)
- Not applicable
- Other (please answer 59b)

59b. If other, please explain:

The Depository shall decide whether to initially record and admit securities to the Settlement System specified by the Issuer upon a standard application form at the latest within three months, unless shorter deadline is provided by applicable law.

60. During the process of lodging securities into the depository, can the securities: Be traded?

- Yes
- No (please answer 60c)
- Not applicable
- Other (please answer 60c)

60a. During the process of lodging securities into the depository, can the securities: Be settled?

- Yes
- No (please answer 60d)
- Not applicable
- Other (please answer 60d)

60b. During the process of lodging securities into the depository, can the securities: Have ownership transferred?

- Yes
- No (please answer 60e)
- Not applicable
- Other (please answer 60e)

60c. If they cannot be traded, or if you answered other, please explain:

Latvia: The securities can be traded only after the process of lodging securities into the depository is finished. The Depository and Nasdaq Riga stock exchange agree on the date when the trade with registered securities can be started. Lithuania: Securities of public companies, Government securities and other securities eligible for Depository do not legally exist unless they are lodged into the Depository on participant's account.

60d. If they cannot be settled, or if you answered other, please explain:

Latvia: The securities can be settled only after the process of lodging of securities into the depository is finished. Lithuania: Securities of public companies, Government securities and other securities eligible for Depository do not legally exist unless they are lodged into the Depository on participant's account.

60e. If ownership cannot be transferred, or if you answered other, please explain:

Latvia: Only when the process of lodging securities into the depository is finished. Lithuania: Securities of public companies, Government securities and other securities eligible for Depository do not legally exist unless they are lodged into the Depository on participant's account.

61. Are securities immediately available for delivery upon transfer to the depository?

- Yes
- No (please answer 61a)
- Not applicable
- Other (please answer 61d)

62. Please describe briefly the arrangements/procedures/facilities you maintain to ensure that eligible securities held at the depository are handled at least as efficiently as compared to securities held outside the depository, particularly in relation to income, corporate actions and proxy services.

By way of automatic data processing and thanks to well developed infrastructure we are of the opinion that eligible securities held at the depository are handled at least as efficiently as compared to securities held outside the Depository, including in relation to income, corporate actions and proxy services. Public limited liability companies cannot be held outside the Depository in Lithuania. In Latvia the Depository performs the registering and accounting of public as well as non-public financial instruments. The Law on the Financial Instruments Market stipulates that all financial instruments that are in public circulation are supposed to be on the books of the Depository. In case of any corporate action (dividend payments, other cash proceeds, takeovers, rights issues etc.) the main principle of information flow are as follows: the Issuer informs the Depository about the upcoming corporate action; The Depository is obliged to forward the information to its respective participants and linked depositories (if applicable). Participants, their clients, each at its respective level towards its own clients, should forward the information to the end investor.

63. What transfer process steps are involved when eligible securities are withdrawn from the depository for safekeeping? (Choose one.)

- Securities are re-registered into the name of the beneficial owner or a nominee.
- Securities are re-certificated and re-registered into the name of the beneficial owner or a nominee.
- Securities are re-certificated and delivered as bearer instruments.
- Securities are transferred as is any physical delivery in the market.
- Other (please answer 63a)
- Not applicable.

63a. Please specify:

Estonia: According to the law the withdrawal of securities from the depository is allowed only in limited cases: 1) when the issuer is dissolved; 2) debt obligations - only after redemption; 3) shares of the joint stock company - only in case of transformation of the company; 4) shares of the private limited company are allowed to be withdrawn anytime.

Latvia: The Depository shall cancel financial instruments issued in Latvia without determined term in the characteristics of such financial instruments, upon receipt of a request of the Issuer's application. The Issuer shall enclose, to its application on cancellation of financial instruments, documents certifying that cancellation of financial instruments is made in compliance with the agreement on recording the issue of financial instruments in the Depository. The Depository shall be entitled to cancel financial instruments without an Issuer's application if the Depository has received information about liquidation of the issuer or instruction of the Financial and Capital Market Commission of the need for cancellation of financial instruments. The Board shall make a decision on cancellation of financial instruments without determined date of cancellation in their characteristics within 5 business days from the issuer's application, information about liquidation of the issuer or instruction of the Financial and Capital Market Commission, by stating the date of cancellation of financial instruments in the decision. Depository also sets the date on which the full list of shareholders is compiled and hands over the full list of shareholders to the issuer.

Lithuania: Entries in the accounts are deleted from the depository system after the public company has been liquidated, has changed its status to private company, or other CA takes place from the issuer side (closing of the issue due to merger or takeover with/by the other company).

Iceland: Issuer can request the CSD to deregister equities approved by the Annual General Meeting and Fixed income approval from the bond holders is needed.

64. How long does it usually take to remove securities from the depository? (Choose one.)

- 1 to 2 days
- 3 days to 1 week
- 2 to 4 weeks
- More than 4 weeks (please answer 64a)
- Not applicable
- Other (please answer 64b)

64b. If other, please explain:

As a standard practice it may take from 1 day up to 1 week, however in some of the cases removal of securities from the Depository can be executed within 60 days.

Iceland: Information about the removal must be published in the Icelandic Legal Gazette with at least 4 weeks notice.

65. While the securities are being removed from the depository, can they:

65a. Be traded? (Choose one)

- No (please answer 65b)
- Not applicable
- Yes
- Other (please answer 65b)

65b. Please explain:

Estonia: Except if security as financial instrument still exists after de-registration. Latvia: the Depository sets the date after which the securities can not be traded and informs about it all the participants of the Depository. Lithuania: No other type of change of ownership is allowed when the public company is in the process of liquidation, is changing its status to private company, or other CA takes place from the issuer side (closing of the issue due to merger or takeover with/by the other company). Iceland: No.

65c. Be settled?

- No (please answer 65d)
- Not applicable
- Yes
- Other (please answer 65d)

65d. Please explain:
